## COOPERATING TECHNICAL PARTNERS PARTNERSHIP AGREEMENT

**AGREEMENT** is made on July 13, 2009, by these parties: San Joaquin Area Flood Control Agency (SJAFC), a joint powers agency (City of Stockton, San Joaquin County and the San Joaquin County Flood Control and Water Conservation District), and the Federal Emergency Management Agency (FEMA).

**BECAUSE** the National Flood Insurance Program (NFIP) established by the National Flood Insurance Act of 1968 has several purposes, the most significant being

- To better indemnify individuals from losses through the availability of flood insurance;
- To reduce future flood damages through community floodplain management regulations; and
- To reduce costs for disaster assistance and flood control;

**BECAUSE** a critical component of the NFIP is the identification and mapping of the nation's floodplains to create a broad-based awareness of flood hazards and to provide the data necessary for community floodplain management programs and to actuarially rate flood insurance;

**BECAUSE** FEMA administers the NFIP and is authorized by §1360 of the National Flood Insurance Act of 1968, as amended (42 U.S.C. 4101), to establish and update flood-risk zone data in floodplain areas;

**BECAUSE** in the identification of floodprone areas, FEMA is authorized to consult with, receive information from, and enter into agreements or other arrangements with the head of any State, regional, or local agency;

**BECAUSE** FEMA encourages strong Federal, State, regional, and local partnerships for the purposes of reducing flood losses and disaster assistance; FEMA and its State, regional, and local partners have determined that it is advantageous to encourage and formalize greater cooperation in the flood hazard identification and mapping processes; and many communities and the agencies that serve them have developed considerable technical capabilities and resources that provide the opportunity to improve and expand the collection, development, and evaluation of flood hazard data; and

**BECAUSE** SJAFC shares flood protection responsibilities with communities that participate in the NFIP, SJAFC has been deemed by FEMA to be in good standing in the NFIP; and

**BECAUSE** SJAFC has expressed a desire to perform certain functions in the flood identification process and has provided evidence that it has sufficient technical capability and will dedicate the resources necessary to perform those functions.

**NOW THEREFORE**, it is mutually agreed that the parties enter into this Agreement to work together to create and maintain accurate, up-to-date flood data for SJAFCA subject to the terms and conditions recited below.

## **1. CONSULTATIONS**

The parties shall collaborate on flood identification activities and shall consult with each other to fully integrate each other's contributions into flood identification efforts. Questions regarding the execution of this Agreement will be resolved by an implementation committee consisting of a FEMA representative and a SJAFCA representative. If the implementation committee is unable to resolve technical issues, the issues may be resolved through alternative dispute resolution procedures.

## **2. EVALUATION AND REPORTING**

The parties shall, on an annual basis, review the partnership created by this Agreement to determine and document the activities undertaken to maintain accurate flood data and to revise the Agreement as necessary.

## **3. RESOURCE COMMITMENT**

The parties agree to commit the appropriate and available human, technical, and financial resources sufficient to coordinate effectively with all entries impacted by flood identification efforts to implement this Agreement.

## **4. STANDARDS**

Unless otherwise agreed to by the parties, all flood identification activities will be accomplished in accordance with the standards documented in *Guidelines and Specifications for Flood Hazard Mapping Partners*, dated April 2003, and all subsequent revisions.

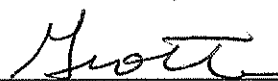

## **5. SPECIFIC INITIATIVES OR PROJECTS**

Specific initiatives or projects to be performed under this Agreement are to be documented in Mapping Activity Statement(s), which will be attached to this Agreement when they are signed.

## **6. TERM**

The respective duties, responsibilities, and commitments of the parties in this Agreement shall begin on the date this Agreement is signed by the parties and may be periodically renewed, revised, or terminated at the option of any of the parties. The parties agree that a 60-day notice shall be given prior to the termination of this Agreement.

**THEREFORE**, each party has caused this Agreement to be executed by its duly authorized representatives on the date mentioned above.
